### Increasing Demands of High rising Buildings Day By Day

Beautiful view:

When you want to enjoy the beautiful Top view then you go to Hill stations,

High rise buildings have not given the same enjoyment but it provides rather same feeling.

According to Mr Alok Tyagi, CMD of ATN Group – “If you take a view on a roof top or a balcony of a multistory Building present an aerial view  
If you buy a top floor of the building, then obviously enjoy the beautiful view of the city very easily.”
